

2020 Recycling

A YEAR IN REVIEW...

Fortunately, in the state of New Jersey, there were little to no disruptions to waste and recycling collection in 2020. The biggest impact we noticed in our services was on commercial business and construction sites. Due to shutdowns and executive orders pausing non-essential construction and in-person dining, we saw a slight decrease in bulky waste and C&D waste. The recycling industry noticed an upward trend in residential recycling, however, due to residents responding to stay-at-home orders.

IN 2020, MAZZA RECYCLING PROCESSED THE FOLLOWING AMOUNTS OF MATERIAL (IN TONS):
